Subject: Alternative electrical Supply to Cath Lab.

Respected Madam

Your goodself is already aware of the issue related to ideally proposed electrical supply of cathlab due to the modal code of conduct by Election Commission of India. Emergent cardiac care of whole south Kashmir is suffering because of non-availability of cath lab at our premises and every day, heart attack and heart block patients are dying either in hospital or as referrals en-route to other hospitals. To overcome this and to improve the patient care an alternate supply whereby an existing 250 kv transformer will be connected to the cath lab has been identified in the meeting conveyed by your goodself on 10/09/2024. This needs a cable length of about 500-600 mtrs (3.5 core/300 or 400 mm), which should suffice us to run cath lab till the original proposed project comes up.

Mr. M  
1329/24

Kindly consider and order for the procurement of same.

Thank You

Yours Faithfully

Kindly read  
Medical Code of Conduct
