**Principal/Dean  
Govt. Medical College, Anantnag**

NO:- GMCA/Plg/62/4182-85

Dated: 08.01.2021.

Copy to the:-

1. Financial Commissioner, Health & Medical Education Department , J&K, Jammu.
2. Joint Director, Information Department, Kashmir, Srinagar with the request to publish the NIT in two leading dailies of the UT.
3. Professor & Head, Department of Pathology, GMC, Anantnag.
4. Chief Accounts Officer, GMC, Anantnag.

**e-tender for Instruments/equipments for Upgradation of Blood Bank to Blood Component & Separation Unit (BCSU) under NHM, ---detailed instructions to the tenderers:**

**1. Scope of contract**

The bids are invited for supply of items detailed in schedule of requirement in Annexure A needed for Department of Pathology, Government Medical College and Associated Hospitals, Anantnag **for Up-gradation of Blood Bank to Blood Component & Separation Unit (BCSU) under NHM** . However, only those items will be purchased through this tender which are not available with JKSMCL.

**2. Eligibility criteria**

Bidder shall be either a manufacturer/ importer or an authorized representative/stockiest/distributor of the manufacturer , with an average turnover of 50.00 lacs each for last three financial years. Only those authorized representatives/ stockiest/distributor shall be permitted to participate in the e-bid who have a letter of authorization from original manufacturer/ importer.

In case of manufacture, it shall have a valid drug manufacturing/ drug license by the state / central licensing authority. The proof of turnover is to be furnished in format T1 certified by the chartered accountant and supported by audited annual statement.

**3. Bid document cost and EMD**

The cost of tender document shall be furnished in the shape of Demand Draft in favour of Principal, Govt. Medical College, Anantnag and Earnest Money Deposit in the shape of CDR/FDR/BG pledged to the Principal, Govt. Medical College, Anantnag, J&K.

The bidder has to upload scanned copy of the demand draft online along with technical bid. **However , original instrument of bid documents cost and EMD in a sealed envelope clearly super scribed as bid for Instruments/equipments for Upgradation of Blood Bank to Blood Component & Separation Unit (BCSU) under NHM with bid reference no and the name of the bidder must reach the tender inviting Authority by post / courier on or before the opening of technical bid , failing which the bid shall be rejected .**

Firms which are registered as MSME units shall be considered for exception of EMD as well as cost of tender document.

EMD will be returned interest – free to the unsuccessful tenderers after finalization of the contract. No interest will be paid on the EMD under any circumstances. In the case of successful bidder, EMD will be discharged upon the

bidder signing the contract and furnishing the performance security deposit or shall be allowed to be adjusted towards performance security Deposit.

#### **4. Forfeiture of bid security**

The bid security will be forfeited in the following cases:-

- a) If the bidder withdraws his bid after closure time of submission of tender.
- b) In case of a successful bidder, if the bidder fails to sign the contract and/or to furnish performance security on or before the due date.
- c) When bidder violates any terms and conditions of the tender documents.

Dean/competent authority reserves the right to accept or reject any or all tenders at any time without assigning any reason thereof what so ever and his decision shall be final on this account

#### **5. Period of validity of bid.**

- a) The bid must remain valid for minimum of 180 days from the date of opening of technical bid . A bid valid for a shorter period shall be rejected by the tender inviting authority as non responsive.
- b) The bidder cannot withdraw his bid within bid validity period and also after execution of rate contract agreement or issuance of supply order for any of the agreed items.

#### **6. Duration of contract**

Once the rate of contract is finalized the rate contract shall be valid for a period of one year from the date of approval of rate contract. However in case of emergency, the same can be extended for three months with the approval of Purchase Committee, GMC Anantnag.

#### **7. Submission of bids**

The bids are to be submitted online in two parts in the e –tender portal ( [www.jktenders.gov.in](http://www.jktenders.gov.in)). Each process in the e- procurement is time stamped and the system can detect time of login of each user including the bidder.

##### **a) Part 1-**

The technical bid shall be submitted on the tendering portal with all the required documents as mentioned in tender document. The list of scanned documents to be up loaded online in PDF format are mentioned blow:-

- |     |           |                   |
|-----|-----------|-------------------|
| i)  | Format T1 | Details of bidder |
| ii) | Format T2 | Declaration form  |

- iii) Format T3 Annual turnover statement by  
Charter accountant.
- iv) Format T4 Details of items quoted  
**Note:- Tenderer who does not  
upload the (format T4)  
shall be rejected.**
- v) Certificate of registration from the appropriate Government authority  
(licence) / authorization letter from original manufacturer along with  
registration of the manufacturer.
- vi) Scanned copy of demand draft for cost of tender document and EMD.
- vii) Copy of pan card.
- viii) Proof of GST registration.
- ix) GST Clearance Certificate upto 31.03.2020.
- x) Signed copy of tender document.

**b) Part 2 –**

Price bid format (BoQ) is not enclosed in the bid document. It has to be downloaded from the e – procurement portal ( jktenders.gov.in price). The price bid format (excel sheet available in e-Tender portal) is specific to a bid and is not interchangeable. The price bid format file ( BoQ itemwise –FormBased) shall be downloaded from the e-Tender portal and the bidders shall fill up only following fields in the sheet BoQ1:

<b>Column 3</b>	<b>Make of the Instruments/Equipments to be given against each item for which rates are to be quoted by the bidder.</b>
<b>Column 13</b>	<b>Rates in Rs./paise per unit including all taxes and charges to be quoted by the bidder.</b>

**Quantities shown in the Price Bid are only indicative. The actual quantity shall be worked out later on as per requirement.**

**8. Signing of the BID**

The bidder shall digitally sign on all statements, document, certificates uploaded on his own responsibility for the correctness / authenticity. If any of the information furnished by the bidder is found to be false/fabricated/bogus, the EMD /bid security shall stand forfeited and his /her name shall be recommended for blocking of portal registration and the bidder is liable to the blacklisted.

## **9. Price BID Opening**

The opening of the price bid shall be done online by the tender inviting authority or his authorized representative. Only the price BIDs of the firms qualified in the detailed scrutiny and evaluation of the technical bid and samples verification, if any, conducted by the technical committee/Tender inviting Authority shall be opened in the second round.

## **10. Award of contract**

The contract will be awarded to the lowest evaluated responsive bidder among the bidders whose samples/make will be approved by the Technical Evaluation Committee.

In case of L1 rates being quoted by more than one bidder the quantity to be supplied shall be equally divided amongst them. In case of single units, decision of the Principal shall be final.

In case L1 bidder fails to execute the contract/ supply the items, L2, L3 in the order may be asked to supply the items if they match the L1 rates.

## **11. Signing of Contract**

Promptly after notification of award, within ten days from the date of the letter of intent, the successful bidder shall execute the contract (as per agreement **Annexure C**) on Rs.100/- stamp paper purchased in the name of the successful bidder, duly signed and dated, shall reach the Tender Inviting Authority by registered / speed post or in person.

## **12. Performance security**

On acceptance of the tender, within the period specified by the Competent Authority, the Service provider shall deposit as security of a sum equal to 3% of the supply order as security deposit. The competent authority shall be entitled to forfeit the Security Deposit or any part thereof in case of any lapse in performance or to recover any loss or damage to the property or to the Purchaser due to the act of service provider or his staff without prejudice to any other remedies provided in the contract or available under law. The security shall be in the form of Demand Drafts in favour of "**Principal, Govt. Medical College, Anantnag**" payable to at Anantnag.

On due performance and completion of the contract in all respects, the Security Deposit will be returned to the contractor without any interest on presentation of an absolute No Demand Certificate in the prescribed form and upon return in good condition of all the property and articles belonging to the purchaser, which may have been issued to the contractor.

### **13. Payments**

No advances payments towards cost of items will be made to the bidder. Payment shall be made after receipt of quality test report from government approved test laboratories and found as of "STANDARD QUALATIES " and bills shall be cleared after receipt of funds from the Govt.

### **14 Jurisdiction of Courts**

All disputes arising out of this bid will be subject to the jurisdiction of courts of law at Anantnag only.

## Annexure "A"

### Schedule of requirements

S. No.	Name of the Item	Specification	Quantity
01.	<b>Plasma Expresser (Manual)</b>	<ul style="list-style-type: none"> <li>❖ Should be suitable to express blood components (plasma, platelets) from collection container.</li> <li>❖ Mode of operation: Manual</li> <li>❖ Front panel should be spring loaded to uniform pressure on container causing transfer of fluid.</li> <li>❖ Compression plate should be made of transparent acrylic durable.</li> <li>❖ Metal used for the equipment should be non-corrosive and can be cleaned with antiseptics.</li> <li>❖ Base portion and vertical surface should be made to have better strength and lasting performance.</li> <li>❖ Certifications: Product Certification: a. CE Class II A or US FDA certified</li> <li>❖ Quality Certification: ISO Certified</li> <li>❖ Electrical Safety: Equipment meets electrical safety specifications such as that of IEC (Class I)</li> </ul>	04
02.	<b>Sterile Connecting Device</b>	<ul style="list-style-type: none"> <li>❖ Should accommodate and weld all types of blood bag tubing in use in our country.</li> <li>❖ The welding should be seamless.</li> <li>❖ Should be Capable of joining wet-wet/dry-dry/Dry-Dry tubes.</li> <li>❖ Welding should not affect the quality of the tube in terms of its physical and chemical properties and it should not cause hemolysis.</li> <li>❖ It should have LED indicators to display the actual status of ongoing procedural steps and audio-visual alarm system for any functional irregularities.</li> <li>❖ The welding accessories should be available with the local agent throughout year.</li> </ul>	01

		<ul style="list-style-type: none"> <li>❖ The consumable wafer cost per 100 pieces to be taken into account during price evaluation.</li> <li>❖ Compatible UPS with half an hour backup.</li> <li>❖ Power supply 220V, 50 Hz AC.</li> <li>❖ Certifications: <ol style="list-style-type: none"> <li>1. Product certification: CE Class II A or US FDA certified</li> <li>2. Quality Certification: ISO certified</li> <li>3. Electrical Safety: Equipment meets electrical safety specifications such as that of IEC (Class I)</li> </ol> </li> </ul>	
03.	<b>Deep Freezers -40°C</b>	<ul style="list-style-type: none"> <li>❖ . (a) Range up to -40 C</li> <li>(b) Internal minimum Capacity 400 liters net.</li> <li>(c) Vertical Cabinet (upright)</li> <li>(d) Thermal capacity should be indicated i terms of tonnage at Ambient temperature 33 C</li> <li>❖ Construction: Solid cabinet casing with phosphate cold rolled sheet steel to prevent corrosion) Acrylic vanishing of high quality and lockable castor. It should have 5 or 6 shelves of stainless steel of 22 G_ Outside sheet shall be of mild steel 3.00 mm (min_ Thickness) and inner side of stainless of stainless steel of 22 G. Outside sheet shall be of mild steel 1.00 mm (min. Thickness and inner side of stainless steel of 0.8 mm (Min, Thick)</li> <li>❖ Control System Micro-processor-based temperature controller with digital to display LED-LCD with seven days graphic inkless to recorder with rechargeable battery backup including charger maintenance free and insensitive to vibration. Details of battery No. V, Ab etc. And details of battery charger shall be indicated</li> <li>❖ Refrigeration System Heavy duty refrigeration system, maintenance free below- 0 C connections with hermetically sealed refrigeration compressors</li> </ul>	01

		<p>and reliable refrigerator to minimize noise and vibration, air cooled with security lock to prevent unintentional switch off shall be supplied. It should have short cooling time of 4 to 5 hours at maximum ambient temperature of 33 C. the equipment should be of continuous duty and frost free. Access port for CO2 bad&lt; up for refrigeration system in case of machine failure.</p> <ul style="list-style-type: none"> <li>❖ Alarm: It should also have audio visual Electronic Alarm system independent of power supply.</li> <li>❖ Insulator: About 17.5 cm high density polyurethane or equivalent Gaskets — Double seal silicon_</li> <li>❖ Electric Requirements: To be operational on 220 to 240 V at 40 Hz.</li> <li>❖ A line voltage corrector of appropriate rating should form part of standard configuration. Line Voltage Corrector; Copper wound single phase automatic line voltage corrector conforming to 15:9815 (Pt_ 1)/94 with amendments or equivalent international standards fitted with a voltmeter and switch to indicate output/input voltage as under: <ol style="list-style-type: none"> <li>1. Capacity /rating: As per the requirement of the equipment</li> <li>2. Input_ voltage 160 to 260 volts 50 cycles. ,</li> <li>3. Output voltage 220 volts to 240 volts_</li> <li>4. the equipment should be supplied with 2-meter chord at input and fitted with lugs of appropriate rating (15 Amp)</li> <li>5. Make of the line voltage corrector shall be indicated_</li> </ol> Additional Specification: (a) Completer with comprehensive set of spare parts including a space compressor, refrigerant gas cylinder etc. And a suitable capacity voltage stabilizer. The</li> </ul>	
--	--	--	--

		<p>make, rating, model, description, specifications, price, quantity of each item shall be furnished separately. The spare shall not be quoted in the price of main equipment.</p> <p>(B) Necessary catalogues technical write up shall be attached with the offer.</p> <p>(c) Performance, efficiency, other factors such as distortion etc. As applicable be also furnished,</p> <p>(d) Complete construction, details in respect of material specification, thickries finish etc. are to be furnished.</p> <p>❖ Notes for the: Tenderers:</p> <p>(a) The proprieties, specification details, thickness of the insulation construction of the cabinet, door etc. Shall be furnished.</p> <p>(b) Complete details e.g. make model rating; description of important equipment/apparatus shall be furnished. Only CE/USPDA &amp; NACO approved makes item shall be used in case of indigenous stores</p> <p>(c) Training of the staff of the consignee for functioning/operation, preventive maintenance shall be arranged by the successful tenders at his cost at the consignee's end during the trail run.</p> <p>(d) The deviations with technical details/explanations shall be brought out at a separate sheet</p> <p>(e) Thermal capacity shall be determined at the following conditions.</p> <p>(i) Evaporating temperature - 23.3 plus Minus 0.5 C</p> <p>(ii) Condensing temperature — 55 plus minus 1 C.</p> <p>(iii) At maximum ambient temperature of 33 C.</p> <p>(iv) Compressor Suction gas temperature - 32 plus minus 1 C.</p> <p>❖ The equipment will have security</p>	
--	--	--	--

		<p>lock to prevent unauthorized opening.</p> <p>Note: Configuration should have all standard accessories and any Option may be separately indicated. Each item of standard accessory included as a part of configuration should be indicated.</p>	
04.	<b>Automated Coagulometer</b>	<ul style="list-style-type: none"> <li>❖ Coagulometer measures the blood clotting parameters</li> <li>❖ Should be microcomputer controlled</li> <li>❖ Semi-automatic with at least 4 channels optics</li> <li>❖ Based on Optical principle with LED</li> <li>❖ Should have integrated / external incubation block with pre – warming positions.</li> <li>❖ Suitable for PT, a-PTT, fibrinogen, thrombin time, factors: II, V, VII, VIII, IX, X, XI, XII, Fletcher, AT-III, Protein C, Protein S, Heparin, STAT</li> <li>❖ Results can be represented in seconds, %activity, ratio, INR g/l and mg/l</li> <li>❖ Should be able to store specific test parameters in the system</li> <li>❖ Should have LCD display</li> <li>❖ Complete system with printer or facility for printer connectivity is required.</li> <li>❖ Should generate the standard curve for factor assays</li> <li>❖ Power input to be 220-240 VAC, 50 HZ fitted with Indian plug.</li> <li>❖ Suitable UPS with maintenance free batteries for minimum 30 minutes back-up should be supplied with the system.</li> <li>❖ Open system for reagent and low reagent consumption</li> <li>❖ The unit shall be capable of being stored continuously in ambient temperature of 0- 50 deg C and relatively humidity of 15-90 %.</li> <li>❖ The unit shall be capable of operating continuously in ambient temperature of 10-40 deg C and relatively humidity of 15-90 %.</li> </ul>	01

		<ul style="list-style-type: none"> <li>❖ User/Technical/Maintenance manuals to be supplied in English.</li> <li>❖ Certificate of calibration and inspection.</li> <li>❖ List of Equipments available for providing calibration and routine maintenance support as per manufacturer documentation in service/technical manual.</li> <li>❖ Reagents for validation, training up to installation to be provided free of cost by manufacturer.</li> <li>❖ Certifications:</li> <li>❖ Product certification: CE Class II A or US FDA certified</li> <li>❖ Quality Certification: ISO certified</li> <li>❖ Electrical Safety: Equipment meets electrical safety specifications such as that of IEC (Class I)</li> </ul>	
05.	<b>Elisa Reader with Washer</b>	<p><b>Specifications for Microplate (ELISA) Reader</b></p> <ul style="list-style-type: none"> <li>❖ Should have minimum wavelength range of 400–750 nm and photometric range of 0.0–3.5 OD</li> <li>❖ Should have linearity of <math>\leq 1.0\%</math> from 0.0–2.0 OD; <math>\leq 2.0\%</math> from 0.0–3.0 OD; accuracy of <math>\leq 1.0\%</math> or 0.010 from 0.000–3.000 OD at 490 nm; precision of 1.0% or 0.005 OD from 0.0–2.0 OD; 1.5% from 2.0–3.0 OD and resolution of 0.001 OD</li> <li>❖ Should have minimum 8 filter wheel capacity with 415, 450, 490, 595, 655, and 750 nm included filters</li> <li>❖ Should have minimum 3 speed plate shaking with adjustable duration of 0–999 sec</li> <li>❖ Read time should not be more than 6 sec at single wavelength or 10 sec at dual wavelengths</li> <li>❖ Should have onboard graphical thermal printer and USB2 interface with PC or Mac data stations for data output</li> <li>❖ Should be able to store data for over sixty assay protocols</li> <li>❖ System should come with a comprehensive software</li> </ul>	01

		<p>package allowing colorimetric and turbidimetric analyses, as well as report analysis for raw data, absorbance, limit, matrix, normalization, and curve fit</p> <ul style="list-style-type: none"> <li>❖ Software should have the functionality of flexible template creation for any microplate format up to 1,536 wells</li> <li>❖ Software should be either license free or license for minimum 5 systems should be provided</li> </ul> <p><b>Specifications for Microplate washer</b></p> <ul style="list-style-type: none"> <li>❖ Automatic washer compatible with strips and 96-well microplates that have flat-, U-, or V-bottom wells.</li> <li>❖ Programmable needle positions (horizontal or vertical) to an accuracy of 0.1 mm for bottom washing, crosswise aspiration, and overflow washing.</li> <li>❖ Dispensing speed control</li> <li>❖ A plate shaking option to help minimize bubbles and adherence of liquid to well sides.</li> <li>❖ Wash bottle sensor to detect high waste liquid levels</li> <li>❖ Up to 75 programmable washing sequences</li> <li>❖ Easily removable 8- or 12-way manifolds</li> <li>❖ Easily accessible manifold interior for maintenance</li> <li>❖ Removable and autoclavable plate carrier</li> <li>❖ An aerosol protection cover</li> <li>❖ Integrated vacuum and dispensing pumps to ensure accurate and quiet washing and to eliminate the need for external pumps.</li> <li>❖ Residual well volume should be &lt; 6 µl</li> <li>❖ Wash bottle volume should be 2000 ml</li> <li>❖ Soak time in strip mode 0-9.9 sec and in plate mode 0-59 minutes.</li> <li>❖ Should come with 8-way manifold and 12-way manifold should be quoted in optional.</li> </ul>
